WATTIS BEGINS WORK ON CUT-OFF

Arranges for the First Camp.

Construction Company Will Put in Hundred Men at Once.

New Line Will Greatly Increase O. S. L. Facilities Between Ogden and Salt Lake.

Special to The Tribune. Special to The Tribune.

OGDEN, June S.—Vice-President W. H.
Wattis of the Utah Construction company, to which concern the contract for
the Layton cut-off of the Oregon Short
Line—otherwise known as the Sand Ridge
or Ogden cut-off—was out over the ground
today and made arrangements for the establishment as a preliminary of the first
camp for 100 men.

"We do not know just yet how many

tablishment as a preliminary of the first camp for 160 men.

"We do not know just yet how many camps we will establish on the work. Of necessity others will follow, and we may have half a dozen. The work will be pushed with all possible dispatch, as there is a time limit in our contract."

Speaking of the proposed improvements which will result in so much advantage to Ogden, as well as to the operation of the Orcson Short Line, Mr. Wattis stated that aside from the work on the cut-off and the laying out of the new yards, he had no information as to the building of shops and the remodeling of the Ogden I'nion depot. He admitted, however, that it was reasonable that the main shops of the system would be erected here, as stated by Mr. Bancroft.

The material taken out of the Layton cut will be used in the work for filling the Ogden yards preparatory to the laying of the new tracks.

As has been stated in these columns.

the Ogden yards preparatory to the laying of the new tracks.

As has been stated in these columns, the new arrangement will eliminate every crossing in Ogden yard. Not alone this, but it will issure a chorter time schedule between Salt Lake and Ogden on the Oregon Short Line, for the reason that the mileage will be reduced a trifle, and in addition, the work of pulling up and hacking into the Ogden Union depot, and of backing upgand pulling out of the same, will be entirely eliminated.

Of all the lines entering Ogden the Oregon Short Line is, under the present facilities, placed at the greatest disadvantage.

Alfred Granberg Meets With Serious Accident in Daly West.

Legal Right of the Park City Council to Fix Toll Rate Is

Special to The Tribune. PARK CITY, Utah, June 8.-Alfred Granberg met with an accident while working at the Daly West mill today, and it seems miraculous that escaped with his life. With several others he was engaged in putting a large pulley on the main shaft of the mill, and was standing on a platform above the shaft. Thinking to make easy work of hoisting the pulley into place, a rope was placed around the shaft so that the revolving shaft would assist in raising the wheel. The pulley came up faster than expected and struck the platform on which the workmen were standing. Granberg lost his balance, and to save himself from falling caught hold of the revolving shaft. Ho was whited around the shaft a few times and fell to the floor below. He was picked up unconsclous, and Dr. Bardsley was summoned. It was found that he had one leg broken, but was not otherwise badly injured. The injured man was removed to the hespital and is resting comfortably. he was engaged in putting a large pulley

Telephone Franchise.

Considerable discussion is heard on the street today regarding the granting of the telephone franchise last night, and while nearly all are of the opinion that the Council did right in allowing the company to come in here, it is the Council did right in allowing the competing company to come in here, it is doubted by many that they had the legal right to may what should be the charge for talking over the lines outside the city. The City Attorney was not prepared last night to give his opinion on the matter, but the legal phase of the cuestion will be gone into carefully before the company accepts the franchise as granted.

Che of the most severe electrical storms

as granted.

One of the most severe electrical storms that has ever visited this section occurred last night, and played havee for a time with the light and telephone plants in this city. A heavy rain all day has greatly swollen the mountain streams.

The workmen in the Ontario drain tunnel have encountered another large cave, about 400 feet from the mouth of the tunnel, and are preparing to drift around it, as they did the first cave. In all probability it is this obstruction that is holding back the water and the great danger in going through it leads the management to take the other method and go around it. The water is still rising slowly in the mine.

In the case of Green vs. Nelson, which was tried before Judge Lockhart yesterday afternoon, judgment was rendered in favor of the plaintiff.

The report that the visitors are not coming in hundreds, but by thousands, from the North and South and East and West, has added zest to what already was exagerated enthusasm, and has filled with consternation those charged with the responsibility of finding accommodations for the strangers. However, as it is summer, and as Logan is bent on hospitality, there will be room found for all, even should the local inhabitants themselves sleep out under the stars while the visitors occupy the beds. Committees are worked almost to madness that everything may be in apple-ple order, and their success is phenomenal. On Friday there will be ball games, races, a horse parade, concerts at the Utalina park and the grand ball in the evening. Saturday will open with the great parade, with bands and floats, distinguished citizens and fraternal organizations, and all that goes to make up a great pageant, followed by an immense meeting, where elequence like water will flow from notable citizens from at home and abroad.

He then 'phoned up to Parowan to Alex Orton to examine the wagon again for the number, telling him where to find it and the number. Mr Orton found the number of the Penny wagon, so it is now established beyond a doubt that the wagon found buried in the hill is the Penny wagon. wagon.
Sheriff Proyd then notified the Penny family and the boy will be here tomorrow.
